### Reasons for Allowance

The following is an examiner's statement of reasons for allowance: the prior art does not disclose or suggest the claimed test key for validating the doping concentration of buried layers within a deep trench capacitor, which is deposited in the scribe line region of a wafer, taken as a whole, including the plugs.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
